Independent Auditor's Report

Honorable Mayor and Borough Assembly The Aleutians East Borough King Cove, Alaska

Ladies and Gentlemen:

We have audited the accompanying financial statements of governmental activities, the business-type activities, each major fund, and aggregate remaining fund information of The Aleutians East Borough as of and for the year ended June 30, 2011, which collectively comprise the Tribe's basic financial statements as listed in the table of contents. These financial statements are the responsibility of the Tribe's management. Our responsibility is to express an opinion on these financial statements based on our audit. We did not audit the component unit financial statements of the Aleutians East Borough School District. Those financial statements were audited by other auditors whose report has been furnished to us, and our opinion on the general-purpose financial statements, insofar as it relates to amounts included for the component unit financial statements of Aleutians East Borough School District and the general fixed assets account group, is based solely on the report of the other auditors.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of governmental activities, the business-type activities, each major fund, and aggregate remaining fund information of The Aleutians East Borough as of June 30, 2011, and respective changes in financial position and, where applicable, cash flows, thereof and for the year then ended in conformity with accounting principles generally accepted in the United States of America.

In accordance with *Government Auditing Standards*, we have also issued a report dated January 3, 2012, on our consideration of The Aleutians East Borough's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* and important for assessing the results of our audit.

Honorable Mayor and Borough Assembly The Aleutians East Borough

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis and budgetary comparison information on pages 3 through 12 and 19 through 20 be presented to supplement the basic financial statements. Such information, although not part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of the financial reporting for placing the basic financial statements in an appropriate operation, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information or provide any assurance.

Our audit was conducted for the purpose of forming opinions on the basic financial statements of The Aleutians East Borough taken as a whole. The combining and individual non-major fund financial statements are presented for purposes of additional analysis and are not part of the basic financial statements. The schedule of expenditures of federal awards is presented for the purposes of additional analysis as required by U.S Office of Management and Budge Circular A-133, Audits of States, Local Governments, and Non-Profit Organizations, and is not a required part of the financial statements. The accompanying schedule of State financial assistance is presented for purposes of additional analysis as required by State of Alaska Audit Guide and Compliance Supplement for State Single Audits and is also not a required part of the financial statements. The combining and individual nonmajor fund financial statements and the schedule of expenditures of federal and state awards are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated in all material respects in relation to the financial statements as a whole.

Management's Discussion and Analysis

Year Ended June 30, 2011

As the management of The Aleutians East Borough, we offer readers of The Aleutians East Borough's financial statements this narrative overview and analysis of the financial activities of The Aleutians East Borough for the fiscal year ended June 30, 2011. We encourage readers to read the information presented here in conjunction with additional information we have furnished in the Borough's financial statements which follow this narrative.

FINANCIAL HIGHLIGHTS

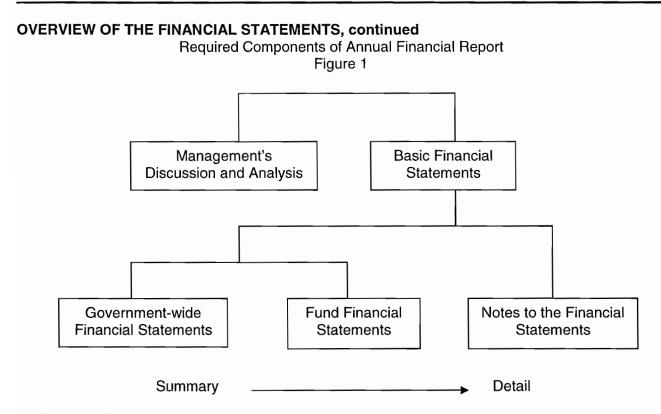

- Assets of The Aleutians East Borough exceeded liabilities at the close of the fiscal year by \$97,375,120 (net assets).
- The Government's total net assets increased by \$7,474,440, primarily due to government activity, capitalization of capital expenses in the government-wide financial statements and gain on investments.
- Governmental funds reported combined ending fund balances of \$50,578,941, an increase of \$11,726,195 in comparison with the prior year.
- At the end of the current fiscal year, unassigned fund balance for the general fund was \$2,207,789, or 61 percent of total general fund expenditures for the fiscal year.

OVERVIEW OF THE FINANCIAL STATEMENTS

This discussion and analysis is intended to serve as an introduction to The Aleutians East Borough's basic financial statements. The Borough's basic financial statements consist of three components: 1) government-wide financial statements, 2) fund financial statements, and 3) notes to the financial statements (see Figure 1). The basic financial statements present two different views of the Borough through use of government-wide statements and fund financial statements. In addition to the basic financial statements, this report contains other supplemental information that will enhance the reader's understanding of the financial condition of The Aleutians East Borough.

King Cove, Alaska

Management's Discussion and Analysis, continued

Basic Financial Statements

The first two statements (Exhibits A-1 and A-2) in the basic financial statements are government-wide financial statements. They provide both short- and long-term information about the Borough's financial status.

The next statements (Exhibits B-1 through B-5) are fund financial statements. These statements focus on activities of the individual parts of the Borough's government. These statements provide more detail than government-wide statements. There are two parts to fund financial statements: governmental funds statements and budgetary comparison statements.

The next section of the basic financial statements is notes. Notes to the financial statements explain in detail some of the data contained in those statements. After the notes, supplemental information is provided to show details about the Borough's individual funds. Budgetary information can also be found in this part of the statements.

Government-wide Financial Statements

Government-wide financial statements are designed to provide the reader with a broad overview of the Borough's finances, similar in format to a financial statement of a private-sector business. The government-wide statements provide short- and long-term information about the Borough's financial status as a whole.

The two government-wide statements report the Borough's net assets and how they have changed. Net assets are the difference between the Borough's total assets and total liabilities. Measuring net assets is one way to gage the Borough's financial condition.

King Cove, Alaska

Management's Discussion and Analysis, continued

OVERVIEW OF THE FINANCIAL STATEMENTS, continued Government-wide Financial Statements, continued

Government-wide statements are divided into two categories: governmental activities and component units. Governmental activities include the Borough's basic services such as natural resource management, capital projects management, and general administration. State and federal grant funds finance most of these activities. The component unit includes the Aleutians East Borough School District. The District's activities include Instruction, Support Services, Student Transportation, and Food Services, among others. These activities are supported by local, State, and federal financial aid.

Government-wide financial statements are Exhibits A-1 and A-2 of this report.

Fund Financial Statements

Fund financial statements (see Figure 2) provide a more detailed look at the Borough's most significant activities. A fund is a grouping of related accounts used to maintain control over resources that have been segregated for specific activities or objectives. All funds of The Aleutians East Borough are included within one broad category: governmental funds.

King Cove, Alaska

Management's Discussion and Analysis, continued

OVERVIEW OF THE FINANCIAL STATEMENTS, continued Fund Financial Statements, continued

Governmental Funds - Governmental funds are used to account for those functions reported as governmental activities in the government-wide financial statements. Most of the Borough's basic services are accounted for in governmental funds. These funds focus on how assets can readily be converted into cash flow in and out and what monies are left at year end that will be available for spending in the next year. Governmental funds are reported using an accounting method called modified accrual accounting which provides a short-term spending focus. As a result, governmental fund financial statements give the reader a detailed short-term view that helps him or her determine if there are more or less financial resources available to finance the Borough's programs. The relationship between government activities (reported in the statement of net assets and statement of activities) and governmental funds is described in a reconciliation that is part of the fund financial statements.

The Aleutians East Borough adopts an annual budget for its general fund. The budget is a legally adopted document that incorporates input from the management of the Borough and decisions of the Assembly about which services to provide and how to pay for them. It also authorizes the Borough to obtain funds from identified sources to finance these current-period activities. The budgetary statement provided for the general fund demonstrates how well the Borough complied with the budget and whether or not the Borough succeeded in providing services as planned when the budget was adopted. The budgetary comparison statement uses the budgetary basis of accounting and is presented using the same format, language, and classifications as the legal budget document. The statement shows four columns: 1) the original budget as adopted by the Assembly; 2) the final budget as amended by the Assembly; 3) actual resources, charges to appropriations, and ending balances in the general fund; and 4) the difference or variance between the final budget and actual resources and charges. To account for the difference between the budgetary basis of accounting and modified accrual basis, a reconciliation showing differences in reported activities is shown at the end of the budgetary statement.

Notes to the Financial Statements

The notes provide additional information that is essential to a full understanding of data provided in the government-wide and fund financial statements. Notes to the financial statements are on pages 25 through 38 of this report.

King Cove, Alaska

Management's Discussion and Analysis, continued

GOVERNMENT-WIDE FINANCIAL ANALYSIS

The government-wide financial statements for the fiscal year ended June 30, 2011, are the beginning of a new era in financial reporting for The Aleutians East Borough and many other units of government across the United States. Prior to this year, The Aleutians East Borough maintained its governmental and proprietary fund groups as two separate and very distinct types of accounting without any type of consolidated statement that accurately reflected operations and net assets of the government as a whole. There was a total column that appeared on the financial statements, but it was a memorandum total only. No attempt was made to adjust statements in such a way that the total column would represent the overall financial condition of The Aleutians East Borough. These statements were basically the equivalent of fund financial statements that appear in this report with fiduciary funds and two account groups, long-term debt, and general fixed assets added in.

Changes in the financial statement reporting model are mandated by GASB. GASB 34 dictated the changes you see in The Aleutians East Borough's financial reports as well as those of many other units of government. While The Aleutians East Borough was required to implement these changes for the fiscal year ended June 30, 2004, other units were required to implement Statement 34 in 2002.

As noted earlier, net assets may serve over time as one useful indicator of a government's financial condition. Assets of The Aleutians East Borough exceeded liabilities by \$97,375,120 as of June 30, 2011. The Borough's net assets increased by \$7,474,440 for the fiscal year ended June 30, 2011. However, the largest portion reflects the Borough's investment in capital assets (e.g., land, buildings, machinery, equipment, and infrastructure) less any related debt still outstanding that was issued to acquire those items. The Aleutians East Borough uses these capital assets to provide services; consequently, these assets are not available for future spending. Although The Aleutians East Borough's investment in its capital assets is reported net of any outstanding related debt, resources needed to repay that debt must be provided by other sources, since capital assets cannot be used to liquidate these liabilities.

Several particular aspects of the Borough's financial operations positively influenced total unrestricted governmental net assets:

- Increase in funding from the Borough raw fish tax.
- Increased funding from the State of Alaska.

Governmental Activities

Governmental activities increased the Borough's net assets by \$8,831,542, thereby accounting for a 8 percent of total increase in net assets of The Aleutians East Borough (see Figure 3). Key elements of this increase are as follows:

- Miscellaneous revenues increased.
- Investment Gains increased.

King Cove, Alaska

Management's Discussion and Analysis, continued

Net assets, end of year	\$ 85,717,477

FINANCIAL ANALYSIS OF THE BOROUGH'S FUNDS

As noted earlier, The Aleutians East Borough uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

Governmental Funds

The focus of The Aleutians East Borough's governmental funds is to provide information on near-term inflows, outflows, and balances of usable resources. Such information is useful in assessing The Aleutians East Borough's financing requirements. Specifically, the unassigned fund balance can be a useful measure of a government's net resources available for spending at the end of the fiscal year.

King Cove, Alaska

Management's Discussion and Analysis, continued

FINANCIAL ANALYSIS OF THE BOROUGH'S FUNDS, continued Governmental Funds, continued

Governmental funds are accounted for using the modified accrual basis of accounting. All governmental funds have total revenues of \$16,205,577 and expenditures of \$9,379,382. The net change in funds balance after transfers and bond proceeds was an increase of \$11,726,195.

At June 30, 2011, governmental funds of The Aleutians East Borough reported a combined fund balance of \$50,578,941, a 31 percent increase over last year.

General Fund Budgetary Highlights

General fund budgets are prepared according to Alaska law and are based on a modified accrual basis of accounting. The most significant budgeted fund is the general fund.

Actual revenues in the general fund were \$2,374,849 more than anticipated. This variance was related primarily to the Borough raw fish tax in the general fund.

Actual expenditures in the general fund were \$226,065 less than anticipated. This variance was related primarily to the administration, resource and other departments in the general fund.

Actual revenues in bond construction were \$94,715 more than anticipated. This variance was related primarily to the increase in investment and other revenue within this fund.

Actual expenditures in bond construction were \$3,747,496 less than anticipated. This variance was due to the decrease in activity within this fund.

Actual revenues in the trust fund were \$4,998,538 greater than anticipated. This variance was due to the increase in investment income.

Actual expenditures in the trust fund were \$6,002 less than anticipated. This variance was due to the decrease in activity within this fund.

Actual expenditures in the debt service fund were \$690,408 greater than anticipated. This variance was due to the increase in interest expense within this fund.

CAPITAL ASSET AND DEBT ADMINISTRATION

Capital Assets

The Aleutians East Borough's investment in capital assets for its governmental activities as of June 30, 2011, totals \$84,572,600 (net of accumulated depreciation; see Figure 4). These assets include buildings, land, machinery and equipment, vehicles, and infrastructure.

King Cove, Alaska

Management's Discussion and Analysis, continued

CAPITAL ASSET AND DEBT ADMINISTRATION, continued

Major capital asset transactions during the year include the following additions and retirements:

- Infrastructure additions totaled \$2,749,507.
- Buildings and improvements additions totaled \$893,285.
- Furniture and Equipment additions totaled \$5,531.

CAPITAL ASSET AND DEBT ADMINISTRATION, continued Long-term Debt

As of June 30, 2011, The Aleutians East Borough had the following outstanding debt:

Bonds payable at July 1, 2010	\$ 29,840,000
Bond Proceeds	4,900,000
Bond issuance premium	100,000
Principal payments	(875,000)

Bonds payable at June 30, 2011

\$ 33,965,000

Additional information on the Borough's outstanding debt can be found in the notes to the basic financial statements.

REQUESTS FOR INFORMATION

This report is designed to provide an overview of the Borough's finances for those with an interest in this area. Questions concerning any of the information found in this report or requests for additional information should be directed to Director of Finance, The Aleutians East Borough, PO Box 49, King Cove, AK 99612.

Governmental Funds

Reconciliation of Fund Balance to Net Assets

Year Ended June 30, 2011

Amounts reported for governmental activities in the statement of net assets are different because:

Total fund balances - Total governmental funds

\$ 50,578,941

Capital assets used in governmental activities are not financial resources and, therefore, are not reported in the funds.

69,103,536

General long-term debt is not due and payable in the current period and, therefore, is not reported in the funds.

(33,965,000)

Net assets of governmental activities

King Cove, Alaska

Governmental Funds

Reconciliation of Change in Net Assets

Year Ended June 30, 2011

Amounts reported for governmental activities in the statement of activities are different because:

Net changes in fund balances - Total governmental funds

\$ 11,726,195

Governmental funds report capital outlays as expenditures; however, in the statement of activities, the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense. This is the amount by which capitalized outlays of \$2,750,274 exceeded depreciation of \$1,619,927 in the current period

1,130,347

Bond proceeds provide current financial resources to governmental funds, but issuing debt increases long-term liabilities in the statement of net assets. Repayment of bond principal is an expenditure in the governmental funds, but the repayment reduces long-term liabilities in the statement of net assets. This is the amount by which proceeds of \$4,900,000 (\$5,000,000 in bonds less premium of \$100,000) exceeds repayments of \$875,000.

(4,025,000)

Total changes in net assets of governmental activities

\$ 8,831,542

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Reporting Entity

The Aleutians East Borough (Borough) was incorporated October 23, 1987, under the laws of the State of Alaska as a second-class borough. All significant activities with which the Borough exercises oversight responsibilities have been included in the Borough's general purpose financial statements.

The accompanying financial statements include all activities of The Aleutians East Borough and The Aleutians East Borough School District. The Borough Assembly, as the oversight authority, approves the total annual budget of the School District and also makes annual contributions to it. Based on financial interdependence, budget approval, responsibility for debt, and accountability and control of fiscal matters, The Aleutians East Borough School District is a component unit of The Aleutians East Borough. The Aleutians East Borough School District's audited financial statements may be obtained from The Aleutians East Borough School District.

No other entities exist over which the Borough has oversight responsibility.

Component Unit

The Aleutians East Borough School District is a component unit of The Aleutians East Borough. The School District was formed July 1, 1988, as a result of the formation of The Aleutians East Borough on the same date. The District was formed by incorporating King Cove City School District and Sand Point City School District. In addition, the following locations were added from Aleutian Region School District: Cold Bay, False Pass, Nelson Lagoon, and Akutan.

As the School District is organized as a government, its financial statements are prepared using accounting principles generally accepted in the United States of America as related to government organizations. As such, the financial statements are prepared using the current financial resources measurement focus and accrual method of accounting.

Government-wide and Fund Financial Statements

The government-wide financial statements (i.e., the statement of net assets and statement of activities) report information in all nonfiduciary activities of the Borough. For the most part, the effect of interfund activity has been removed from these statements. Governmental activities, which normally are supported by intergovernmental revenues, are reported separately from business-type activities which rely to a significant extent on fees and charges for support.

The statement of activities demonstrates the degree to which direct expenses of a given function or segment are offset by program revenues. Direct expenses are those clearly identifiable with a specific function or segment. Program revenues include grants and contributions that are restricted to meeting the operations or capital requirements of a particular function or segment. Other items not properly included among program revenues are reported instead as general revenues.

King Cove, Alaska

Notes to Financial Statements, continued

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES, continued Government-wide and Fund Financial Statements, continued

Separate financial statements are provided for governmental fund types. Major individual governmental funds are reported in separate columns in the fund financial statements.

The government-wide financial statements are reported using the economic resources measurement focus and accrual basis of accounting. Revenues are recorded when earned and expenditures are recorded when liability is incurred, regardless of the timing of related cash flows. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

Net assets should be reported as restricted when constraints placed on net asset use are either externally imposed by creditors (such as through debt covenants), grantors, contributors, or laws or regulations of other governments or imposed by law through constitutional provisions or enabling legislation. At June 30, 2011, the Borough had no restricted net assets.

Measurement Focus, Basis of Accounting, and Basis of Presentation

The financial statements of the Borough are prepared in accordance with accounting principles generally accepted in the United States of America (GAAP). The Borough's reporting entity applies all relevant GASB pronouncements and applicable Financial Accounting Standards Assembly (FASB) pronouncements and Accounting Principles Assembly (APB) opinions issued on or before November 30, 1989, unless they conflict with GASB pronouncements. The Borough's reporting entity does not apply FASB pronouncements or APB opinions issued after November 30, 1989.

The government-wide statements report using the economic resources measurement focus and accrual basis of accounting includes reclassification or elimination of internal activity (between or within funds). Financial statements of Borough component units also report using this same focus and basis of accounting, although internal activity is not eliminated in these statements. Revenues are recorded when earned, and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows.

The governmental fund financial statements report used the current financial resources measurement focus and modified accrual basis of accounting. Revenues are recognized when they are both measurable and available. Available means collectible within the current period or soon enough thereafter to pay current liabilities. The Borough considers revenues to be available if they are collected within 60 days of the end of the fiscal year. Expenditures are recorded when the related fund liability is incurred.

Major revenue sources susceptible to accrual include intergovernmental revenues and investment income. In general, other revenues are recognized when cash is received.

When both restricted and unrestricted resources are available for use, it is the Borough's policy to use restricted resources first, then unrestricted resources as needed.

King Cove, Alaska

Notes to Financial Statements, continued

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES, continued Fund Types and Major Funds

The Borough reports the following major governmental funds:

- General Fund Reports as the primary fund of the Borough. This fund is used to account for all financial resources not reported in other funds.
- Bond Construction Accounts for all revenue received and expenditures made for the development and administration of construction, including the issuance of bonds.
- Trust Fund Accounts for all revenue received and expenditures made for the development and administration of the trust fund.
- Debt Service Accounts for all expenditures made for the retirement of and interest on debt.
- Business-type activity Hovercraft and Terminal Accounts for all activity for the operations
 of the hovercraft.

Other Fund Types

The Borough also reports the following fund type: Nonmajor Fund - Reports all capital expenditures for the Borough.

Assets, Liabilities, and Equity

- Deposits and Investments The Borough's cash and cash equivalents are considered to be cash on hand, demand deposits, and short-term investments with original maturities of 3 months or less from the date of acquisition.
- Receivables and Payables All outstanding balances between funds are reported as "due to/from other funds." These balances represent the numerous transactions that occur during the course of operations between individual funds for goods provided or services rendered. The direct write-off method is used for estimated uncollectible accounts receivable.
- Prepaid Items Certain payments to vendors reflect costs applicable to future accounting periods and are recorded as prepaid items.

King Cove, Alaska

Notes to Financial Statements, continued

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES, continued Assets, Liabilities, and Equity, continued

Fixed Assets - The Borough's property, plant, equipment, and infrastructure with useful lives of more than 1 year are stated at historical cost and comprehensively reported in government-wide financial statements. The Borough maintains infrastructure asset records consistent with all other capital assets. Component unit capital assets are also reported in their respective fund and combining component unit financial statements. Donated assets are stated at fair value on the date donated. The Borough generally capitalizes assets with a cost of \$5,000 or more as purchase and construction outlays occur. Costs of normal maintenance and repairs that do not add to the value of the asset or materially extend assets' lives are not capitalized. Capital assets, including those of component units, are depreciated using the straight-line method. When capital assets are disposed, the cost and applicable accumulated depreciation are removed from the respective accounts, and the resulting gain or loss is recorded in operations.

Estimated useful lives in years for depreciable assets are as follows:

Buildings	25
Infrastructure	30
Furniture and equipment	3 to 7
Vehicles	7

- Compensated Absences It is the Borough's policy to permit employees to accumulate earned but unused annual leave. Compensated absences are reported as accrued in government-wide and component unit financial statements. Governmental funds report only matured compensated absences payable to currently terminated employees and are included in wages and benefits payable.
- <u>Deferred Revenue</u> Amounts for which asset recognition criteria have been met but for which revenue recognition criteria have not been met are recorded as deferred revenue.
- <u>Long-term Debt</u> In government-wide and component unit financial statements, outstanding debt is reported as liabilities. Governmental fund financial statements recognize proceeds of debt and premiums as other financing sources of the current period.
- <u>Fund Equity</u> Governmental fund financial statements report reserved fund balance for amounts not available for appropriation or legally restricted for specified purposes. There is no reserved fund balance reported in the current year.

Use of Estimates

Preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

King Cove, Alaska

Notes to Financial Statements, continued

NOTE 2 - STEWARDSHIP, COMPLIANCE, AND ACCOUNTABILITY

Budgetary Information

The Borough Assembly is required to approve an annual budget before the start of the new fiscal year. Public hearings are conducted to obtain taxpayer comments. The budget is legally enacted through passage of an ordinance. Budgets are prepared and presented on the modified accrual basis of accounting. Any revisions to the budget must be approved by passage of an ordinance by the Assembly. The Borough Assembly authorizes formal budget revisions several times each year to adjust revenues and expenditures to available resources and program needs. The final revised and approved budget is presented in these financial statements.

Beginning in fiscal year 2003, the Borough is forward funding its general fund expenditures and reserving general fund balance to the extent of current-year general fund revenue except coastal management and LEPC grants.

NOTE 3 - CASH AND INVESTMENTS

The Borough's investment policy authorizes the Borough to invest in U.S. Treasury securities; obligations guaranteed by the U.S. government or its agencies or instrumentalities; repurchase agreements; certificates of deposit; bonds and notes which are issued by any state or political subdivision thereof which are graded "A" or higher by Moody's Investor's Service, Inc.; prime commercial paper graded "A1" or higher by Moody's Investor's Service, Inc.; banks and savings and loan associations to the extent that deposits are insured by Federal Depository Insurance Corporation or Federal Savings and Loan Insurance Corporation: obligations of corporations. provided the obligations are graded "Baa" or higher by Moody's Investor's Service Inc., or Standard and Poor's Corporation and issued in the United States and denominated in US dollars, not more than 15% of the fixed income portfolio may be held in Baa rated securities; The Alaska Municipal League Investment Pool, Inc.; and Income producing real estate investments. Additionally, the policy authorizes the Borough invest permanent fund assets to maintain safety of principle while maximizing the total return. Investments shall be diversified to minimize the risk of loss resulting from a concentration of investments in a specific maturity, issuer, class of security, financial institution, or with respect to equity investments, in a specific company, industry or investment sector. Fund assets may be invested in the instruments and securities set out in the following securities: Domestic Equities, which taken as a whole, attempt to replicate the Standard and Poor's 500 Index, including both mutual funds and exchange traded funds (ETF's); International Equities, which taken as a whole, attempt to replicate the Morgan Stanley Europe, Australiasia, Far East (EAFE) Index, including both mutual funds and exchange traded funds (ETF's); Equities, which take as a whole, attempt to replicate the universe of domestic real estate investment trusts as represented by the S&P REIT index or the Cohen and Steers Realty Majors Portfolio Index, including both mutual funds and exchange traded funds (ETF'S); and Domestic Equities, which taken as a whole, attempt to replicate the Standard and Poor's 400 Midcap Index, including both moth mutual funds and exchange traded funds (ETF's). The permanent fund may invest up to 35 percent of total invested permanent funds in common and preferred stock listed on a recognized exchange and a mutual fund designed to replicate the Standard and Poor's 500 Index. The permanent fund may also invest in international equities up to a maximum of 5 percent of the total permanent fund. Performance measurement for the Fixed Income Allocation will be measured against the Target weighting using the Lehman Intermediate Gov/Credit Index for the Benchmark.

King Cove, Alaska

Notes to Financial Statements, continued

NOTE 3 - CASH AND INVESTMENTS, continued

The duration of the Fixed Income Allocation should be maintained between 80% and 120% of the duration of the Benchmark.

Statutes require that the Borough's deposits in excess of FDIC or FSLIC limits be collateralized by government securities. Cash resources for some of the various funds are maintained in a central treasury represented by a sweep checking account and certificate of deposit. Cash is swept and commingled with the School District's moneys within Borough accounts on a daily basis.

The Borough participates in the Alaska Municipal League Investment Pool (AMLIP). This investment pool consists of governmental investors within the State of Alaska. AMLIP does not carry its own institutional insurance or collateralization for funds it invests. The organizing document does state that certificates of deposit must be collateralized or covered by federal insurance by the issuing entity. The carrying amount and market value at June 30, 2011, was \$50,775.

Cash and investment balances are as follows:

	Bank <u>Balance</u>	Book Balance
Cash and cash equivalents Investments, at fair market value	\$ 8,977,168 <u>39,549,648</u>	8,536,554 39,549,648
	\$ 48,526,816	48,086,202

Components of investment income/(loss) at June 30, 2011 was as follows:

Interest	\$	607,805
Dividends		401,581
Fees		(15,431)
Realized gains (loss)		186,115
Unrealized gains (loss)		4,226,921
	<u>\$</u>	5,406,991

Investment income/(loss) affected the following funds at June 30, 2011:

General Fund - unreserved	\$ 9,050)
Bond Construction - reserved	46,442	!
Trust Fund - reserved	5,348,538	}
Non-Major Fund- unresserved	2,961	_

Notes to Financial Statements, continued

NOTE 6 - LONG-TERM DEBT

Following is a summary of general obligation bond transactions of the Borough for the year ended June 30, 2011:

Bonds payable at July 1, 2010	\$ 29,840,000
Bond proceeds	4,900,000
Bond issuance premium	100,000
Principal payments	(875,000)
Bonds payable at June 30, 2011	\$ 33.965.000

General obligation bonds payable at June 30, 2011, are comprised of the following individual issues:

\$3,550,000 - 2001 Akutan and False Pass Schools, due in variable installments ranging from \$30,000 to \$190,000 through November 1, 2021; interest rate is not to exceed 7 percent	2,310,000
\$21,125,000 - 2003 Aleutians East Borough, Alaska school, marine, other transportation, due in variable installments ranging from \$60,125 to \$2,465,125 through December 1, 2028; interest rate not to exceed 7 percent	2,150,000
\$5,000,000 - 2006 Akutan Harbor due in variable installments	
ranging from \$112,393 to \$556,235 through February 1, 2026;	
interest rate is variable from 4.0 to 4.35 percent.	3,680,000
\$21,095,000 - 2007 Refunding of Aleutians East Borough bonds due in variable installments ranging from \$53,550 to \$2,433,550	
through June 30, 2029; interest rate is variable from 3.75 to 5.0 percent	20,825,000
\$5,000,000 - 2011 Akutan Airport and King Cove Access Project	
due in variable installments ranging from \$175,000 to \$1,560,000	
through October 1, 2030; interest rate is variable from 2.0 to 5.4 percent	5,000,000

\$ 33,965,000

King Cove, Alaska

Notes to Financial Statements, continued

NOTE 6 - LONG-TERM DEBT, continued

Annual requirements to amortize all Borough general obligation bonds and leases payable as of June 30th follow:

	Principal	Interest	Total
Year ending			
2012	\$ 950,365	2,538,775	3,489,139
2013	1,063,591	2,497,055	3,560,645
2014	1,132,182	2,450,114	3,582,295
2015	1,201,154	2,399,566	3,600,720
2016	1,250,525	2,342,246	3,592,770
2017-2021	8,508,400	6,677,016	15,185,415
2022-2026	11,433,785	3,340,127	14,773,912
2027-2031	8,425,000	679,594	9,104,594
	\$ 33,965,000	22,924,491	56,889,491

NOTE 7 - EXCESS OF EXPENDITURES OVER APPROPRIATIONS

Excess of expenditures over appropriations in individual funds for the current year were:

	Budget	Actual Expenditures	Over Budget
Debt service	\$ 1,597,433	2,287,841	(690,408)

NOTE 8 - DEFINED-BENEFIT PENSION PLANS

All non-certified permanent employees working over 30 hours per week participate in the Alaska Public Employees Retirement System (PERS).

Alaska Public Employees Retirement System (PERS)

<u>Plan Description</u>: The plan is a joint-contributor agent, multiple-employer PERS plan created by State of Alaska statutes effective January 1, 1961. Any municipality or other political subdivision of the State may request to become an employer in this system. Benefit and contribution provisions are established by State law and may be amended only by State legislature.

<u>Pension Benefits</u>: The Aleutians East Borough participates in the Public Employees Retirement System (PERS), a retirement plan that provides pension, postemployment health care, death and disability benefits to eligible participants. The PERS is administered by the State of Alaska Division of Retirement and Benefits.

King Cove, Alaska

Notes to Financial Statements, continued

NOTE 8 - DEFINED-BENEFIT PENSION PLANS, continued

Employees hired prior to July 1, 2006 and employees hired after July 1, 2006 who have PERS enrollment from prior employment, participate in the PERS Tiers I-III, a defined benefit retirement system. Employees hired after July 1, 2006 who have no prior PERS participating employment participate in PERS Tier IV, a defined contribution plan with a component of defined benefit postemployment health care. Benefits and contribution provisions are established by State law and may be amended only by the State Legislature.

Each fiscal year the PERS issues publicly available financial reports that include financial statements and required supplementary information. These reports are available from: Department of Administration, Division of Retirement and Benefits, PO Box 110203, Juneau, AK 99811.

Conversion to Cost Sharing: In 2008 the Alaska Legislature passed Senate Bill (SB) 125 which converted the PERS from an agent-multiple employer plan to a cost-sharing plan with an effective date of July 1, 2008. Under the cost sharing arrangement the State of Alaska Division of Retirement and Benefits no longer tracks individual employer assets and liabilities. Rather, all plan costs and past service liabilities are shared among all participating employers. The cost sharing plan requires a uniform employer contribution rate of 22% of active member wages, subject to a wage floor. State legislation currently provides that the State of Alaska will contribute any amount over 22% such that the total contribution equals the Alaska Retirement Management Board adopted rate. This rate will be consistent with the actuarially determined rate. Any such additional contributions are recognized by each employer as an on-behalf payment.

In fiscal year 2008 the State of Alaska also passed SB 123 which requires the employer contribution be calculated on all PERS eligible wages, including wages attributable to the defined contribution plan.

The PERS contribution rates for 2011 were determined as part of the June 30, 2008 actuarial valuations as follows:

	Contractual	ARM Board	GASB 45
Pers Rates - 2010	Rate	Adoption Rate	Rate**
Pension	6.82%	10.25%	Unavailable
Postemployment Health Care	15.18%	17.40%	Unavailable
Total Contribution Rate	22.00%	27.65%	Unavailable
	Contractual	ARM Board	GASB 45
Pers Rates - 2011	Rate	Adoption Rate	Rate**
Pension	7.64%	9.98%	Unavailable
Postemployment Health Care	14.36%	17.98%	Unavailable
Total Contribution Rate	22.00%	27.96%	Unavailable

^{**} this rate uses a 4.5% OPEB discount rate and disregards future Medicare Part D payments.

King Cove, Alaska

Notes to Financial Statements, continued

NOTE 8 - DEFINED-BENEFIT PENSION PLANS, continued

The projection of future benefits for an ongoing plan involves estimates of the value of reported amounts and assumptions about the probability of occurrence of events far into the future. Examples include assumptions about future employment, mortality, and the healthcare cost trend. Amounts determined regarding the funded status of the plan and the annual required contributions of the employer are subject to continual revision as actual results are compared with past expectations and new estimates are made about the future.

Projections of benefits are based on the substantive plan (the plan is understood by the employer and the plan members) and include the types of benefits in force at the valuation date and the pattern of sharing benefit costs between AEB and the plan members at that point. Actuarial calculations reflect a long term perspective and employ methods and assumptions that are designed to reduce short-term volatility in actuarial accrued liabilities and the actuarial values of assets. The significant actuarial information and assumptions used in the most recent valuation plan follow:

Valuation Date	June 30, 2010
Actuarial Cost Method	Entry age actuarial cost
	Level percentage of pay for pension
	Level dollar for healthcare
Amortization Method	Level dollar, closed
Equivalent Single Amortization Period	20 years
Asset Valuation Method	5-year smoothed market
Actuarial Assumptions:	
Investment rate of return	8.25% for pension, 4.7% for healthcare.
Projected salary increases	Others: Merit- 5.5% per year grading down to 1.5%
	after 5 years; more than 6 years of service,
	1.0% grading down to 0%.
	Productivity - 0.5% per year.
Payroll Growth	4% per year.
*Inflation	3.5 % annually.
Health Cost Trend	Medical: 7.5% for FY10 grades down to 6.9% thru FY11.
	Prescription Drugs: 9.6% for FY10 trending down to
	8.3% thru FY11.

Projected benefits for financial reporting purposes do not incorporate any potential effect of legal or contractual funding limitations.

Annual Pension and Post employment Healthcare Cost: AEB is required to contribute 22% of covered payroll, subject to a wage floor. In addition, the State of Alaska contributes the difference between the rates established by the Alaska Retirement Management Board (ARMB) and the employer mandated rates. The state of Alaska contributed approximately 5.65% and 5.96% of covered payroll to the retirement plan in State FY2010 and State FY2011 respectively.

King Cove, Alaska

Notes to Financial Statements, continued

NOTE 8 - DEFINED-BENEFIT PENSION PLANS, continued

In accordance with the provisions of GASB Statement Number 24, AEB has recorded the State contribution in the amount of \$69,314 as a PERS on-behalf payment for the year ended June 30, 2011. However, because AEB is not statutorily obligated for these payments, this amount is excluded from pension and the Obligation Post Employee Benefit as described here.

	Annual	Annual	Total Benefit	_	% of TBC
Period	Pension Cost	OPEB Cost	Cost (TBC)	Contributions	Contributed
07/01/10-6/30/11	\$ 197,240	-	197,240	197,240	100%

Employees first enrolling into PERS after July 1, 2006 participate in PERS Tier IV. PERS Tier IV is a defined contribution retirement plan that includes a component of defined benefit post-employment health care. The plan required both employer and employee contributions. Contribution rates are as follows:

Pers Tier IV Contribution Rates:	07/01/10 - 12/31/10	01/01/11 - 06/30/11
Employee Contribution	8.00%	8.00%
Employer Contribution		
Retirement	5.00%	5.00%
Health Reimbursement Arrangement*	3.00%	3.00%
Retiree Medical Plan	0.55%	0.55%
Death & Disability Benefit	0.31%	0.31%
Total Employer Contribution	8.86%	8.86%

*Health Reimbursement Arrangement – AS 39.30.370 requires that the employer contribute "an amount equal to three percent to the employers average annual employee compensation." For actual remittance this amount was calculated at a flat rate of \$66.18 per full time employee per pay period for full time employees and \$1.10 per hour worked for each part time employee.

Under the newly adopted cost sharing arrangement for the PERS defined benefit plan the state statute employer contribution rate of 22% includes Tier IV employees. In addition to the amounts above AEB contributed \$33,864 on Tier IV employee payroll for the year ended June 30, 2011. This contribution is comprised of \$28,845 for retirement and retiree medical and disability, and \$5,019 for Health Reimbursement Arrangement on-behalf of its employees.

All amounts paid on behalf of employees are applied to the obligation of the PERS defined benefit plan and is included in the contribution AEB recorded in the defined benefit cost-sharing plan. Employee contribution to the plan totaled \$12,314.

NOTE 9 - DEFERRED COMPENSATION PLAN

The Borough offers its employees a deferred compensation plan created in accordance with Internal Revenue Code Section 457. The plan, available to all employees, permits them to defer a portion of their salary until future years. The deferred compensation is not available to employees until termination, retirement, death, or unforeseeable emergency.

King Cove, Alaska

Notes to Financial Statements, continued

NOTE 9 - DEFERRED COMPENSATION PLAN, continued

All amounts of compensation deferred under the plan, all property and rights purchased with those amounts, and all income attributable to those amounts, property, or rights (until paid or made available to the employee or other beneficiary) are solely the property and rights of the Borough (without being restricted to provisions of benefits under the plan), subject only to claims of the Borough's general creditors. Participants' rights under the plan are equal to those of general creditors of the Borough in the amount equal to fair market value of the deferred account for each participant.

The Borough has no liability for losses under the plan but does have the duty of due care that would be required of an ordinary prudent investor. The Borough believes it is unlikely it will use the assets to satisfy claims of general creditors in the future. Assets of the fund totaled \$435,623 at June 30, 2011, and are accounted for in the deferred compensation agency fund.

NOTE 10 - THE ALEUTIANS EAST BOROUGH SCHOOL DISTRICT CONTRIBUTION

Contributions:

Total contributions - Cash	\$ 2,023,807
FY10 revenue in excess of expenditures	461,727
Additional CIP contribution	174,080
Local school contribution	\$ 1,388,000

NOTE 11 - COMMITMENTS AND CONTINGENCIES

Grants

The Aleutians East Borough participates in a number of federal- and State-assisted grant programs. These programs are subject to program compliance audits by grantors or their representatives. The amount, if any, of expenditures that may be disallowed by granting agencies cannot be determined at this time, although the Borough expects such amounts, if any, to be immaterial.

Contract Dispute

The Borough is currently in a dispute with WHPacific. The borough has asserted that the architects on the Aleutians East Regional Airport Terminal neglected their duties due to mold issues that have impacted the occupancy of the building for its intended purposes. The outcome of the litigation is uncertain at this time. The trial is scheduled for January 23, 2012, but the case may be settled before this time with potential mediation. There are no counter claims by WHPacific.

AEB has filed a lawsuit against the contractor, Northern Management Services, Inc. for breach of contract regarding the construction of the Aleutians East Regional Airport Terminal. Northern Management Services, Inc. has a counter claim in the approximate amount of \$412,270 for work that was performed on the Aleutians East Regional Airport Terminal but not paid for after the defects in construction became noticed. The outcome of these claims is uncertain at this time. Damages are currently being determined from the construction defects.

King Cove, Alaska

Notes to Financial Statements, continued

NOTE 11 - COMMITMENTS AND CONTINGENCIES, continued Contract Dispute, continued

The Borough is in a dispute with a contractor on the Harbor Improvement Project in King Cove. The contractor requested additional payment of approximately \$2.7 million for excess costs incurred on the project. During 2009, Red Samm Construction, Inc. filed a Request for Equitable Judgment. The U.S. Army Corps of Engineers paid the amount for the Equitable Judgment and no appeal has been filed. The Borough is not liable to Red Samm for any additional costs regarding this dispute, but according to calculations for cost sharing done by the U.S Army Corps of Engineers, the Borough will need to pay the U.S Army Corps an additional \$89,676 to completely close out their share of this contract effort. The U.S Army Corps of Engineers is currently discussing a repayment plan for this money.

Again, according to calculations for cost sharing done by the U.S Army Corps of Engineers, the Borough will also need to pay the U.S Army Corps an additional \$21,093 to completely close out their share of this contract effort for Sand Point Harbor. The U.S Army Corps of Engineers is currently discussing a repayment plan for this money.

Lastly, The Borough is currently in a dispute with a contractor on the False Pass Harbor Project Contract in King Cove. During 2009, Kelly-Ryan Inc. filed a Request for Equitable Adjustment. The contractor is requesting payment of approximately \$36 million in excess costs incurred on the project. The project is managed by the U.S. Army Corps of Engineers, and they are disputing the claims on behalf of the Borough. The Borough continues to work with its congressional delegation to limit its overall exposure should the contractor prevail. The Borough will owe an estimated \$371,852 in additional funds to the U.S Corps of Engineers after the KRI contract has closed out. The additional funding requirement may be paid over 30 years after final accounting, with interest.

The Borough has recorded a liability of \$482,621 for the sum of the amounts mentioned in the previous three paragraphs.

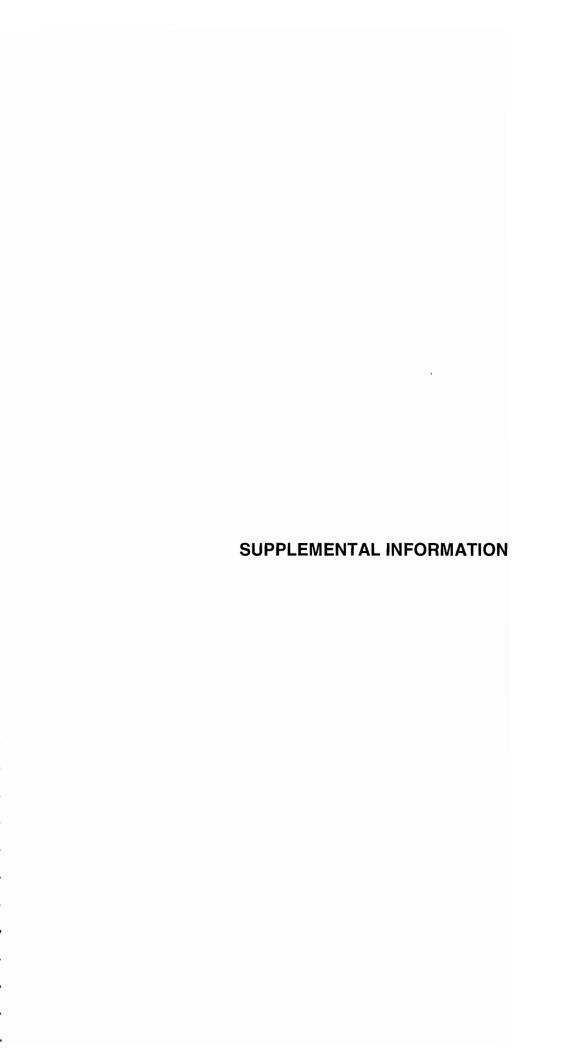

NOTE 12 - Subsequent Events

In preparing these financial statements, AEB has evaluated events and transactions for potential recognition or disclosure through January 3, 2012, the date the financial statements were issued.

NOTE 13 - PRIOR PERIOD ADJUSTMENT

During 2011, it was discovered there were capital outlays that were not included as additions to capital assets within the business-type activies. Accordingly, beginning net assets have been adjusted as:

Previously reported ending net assets as of June 30, 2010	\$ 7,642,197
Adjustments to ending net assets:	
Adjustment to ending net assets, 2011	5,372,548
Total adjustment to ending net assets	<u>5,372,548</u>
Restated ending net assets as of June 30, 2010	\$ 13,014,745

Report on Internal Control over Financial Reporting and on Compliance and Other Matters Based on an Audit of Financial Statements Performed in Accordance with Government Auditing Standards

Honorable Mayor and Borough Assembly The Aleutians East Borough King Cove, Alaska

Ladies and Gentlemen:

We have audited the financial statements of governmental activities, business-type activities, each major fund, and aggregate remaining fund information of The Aleutians East Borough as of and for the year ended June 30, 2011, which collectively comprise The Aleutians East Borough's basic financial statements and have issued our report thereon dated January 3, 2012. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States.

Internal Control over Financial Reporting

In planning and performing our audit, we considered The Aleutians East Borough's internal control over financial reporting as a basis for designing our auditing procedures for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of The Aleutians East Borough's internal control over financial reporting. Accordingly, we do not express an opinion on the effectiveness of The Aleutians East Borough's internal control over financial reporting.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. A material weakness is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis.

Our consideration of internal control over financial reporting was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over financial reporting that might be deficiencies, significant deficiencies, or material weaknesses. We did not identify any deficiencies in internal control over financial reporting that we consider to be material weaknesses, as defined above.

Honorable Mayor and Borough Assembly The Aleutians East Borough

Compliance and Other Matters

As part of obtaining reasonable assurance about whether The Aleutians East Borough's financial statements are free of material misstatements, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under Government Auditing Standards.

This report is intended solely for the information and use of the Borough, management, and federal awarding agencies and pass-through entities, is not intended to be, and should not be used by anyone other than these specified parties. Hampenn i Vogla

January 3, 2012

237 E. Fireweed Lane, Suite 200 Anchorage, Alaska 99503 (907) 258-7555 (907) 258-7582 Fax

Independent auditor's report on compliance with requirements that could have a direct and material effect on each major program and on internal control over compliance in accordance with OMB Circular A-133

Honorable Mayor and Borough Assembly The Aleutians East Borough Anchorage, Alaska

Ladies and Gentlemen:

Compliance

We have audited The Aleutians East Borough's compliance with the types of compliance requirements described in the OMB Circular A-133 Compliance Supplement that could have a direct and material effect on each of The Aleutians East Borough's major federal programs for the year ended June 30, 2011. The Aleutians East Borough's major federal programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs. Compliance with the requirements of laws, regulations, contracts, and grants applicable to each of its major federal programs is the responsibility of The Aleutians East Borough's management. Our responsibility is to express an opinion on The Aleutians East Borough's compliance based on our audit.

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and OMB Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*. Those standards and OMB Circular A-133 require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about The Aleutians East Borough's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion. Our audit does not provide a legal determination on The Aleutians East Borough's compliance with those requirements.

In our opinion The Aleutians East Borough complied, in all material respects, with the requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended June 30, 2011.

Honorable Mayor and Borough Assembly The Aleutians East Borough

Internal Control over Compliance

Management of The Aleutians East Borough is responsible for establishing and maintaining effective internal control over compliance with the requirements of laws, regulations, contracts, and grants applicable to federal programs. In planning and performing our audit, we considered The Aleutians East Borough's internal control over compliance with the requirements that could have a direct and material effect on a major federal program to determine the auditing procedures for the purpose of expressing our opinion on compliance and to test and report on internal control over compliance in accordance with OMB Circular A-133, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of The Aleutians East Borough's internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. A material weakness in internal control over compliance is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be deficiencies, significant deficiencies, or material weaknesses. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses, as defined above.

This report is intended solely for the information and use of the audit committee, management, federal awarding agencies, and pass-through entities and is not intended to be and should not be used by anyone other than these specified parties.

Report on Compliance with Requirements that Could Have a Direct and Material Effect on Each Major Program and on Internal Control over Compliance in Accordance with State of Alaska Audit Guide and Compliance Supplement for State Single Audits

Independent Auditors Report

Honorable Mayor and Borough Assembly The Aleutians East Borough King Cove, Alaska

Ladies and Gentlemen:

<u>Compliance</u>

We have audited The Aleutians East Borough's compliance with the types of compliance requirements described in the State of Alaska Audit Guide and Compliance Supplement for State Single Audits that could have a direct and material effect on each of The Aleutians East Borough's major state programs for the year ended June 30, 2011. The Aleutians East Borough's major state programs are identified in the accompanying schedule of state financial assistance. Compliance with the requirements of laws, regulations, contracts, and grants applicable to each of its major state programs is the responsibility of The Aleutians East Borough's management. Our responsibility is to express an opinion on The Aleutians East Borough's compliance based on our audit.

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the *State of Alaska Audit Guide and Compliance Supplement for State Single Audits*. Those standards and the *State of Alaska Audit Guide and Compliance Supplement for State Single Audits* require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major state program occurred. An audit includes examining, on a test basis, evidence about the Borough's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion. Our audit does not provide a legal determination of the Organization's compliance with those requirements.

In our opinion, The Aleutians East Borough complied, in all material respects, with the compliance requirement referred to above that could have a direct and material effect on each of its major state programs for the year ended June 30, 2011.

Honorable Mayor and Borough Assembly The Aleutians East Borough

Internal Control over Compliance

Management of The Aleutians East Borough is responsible for establishing and maintaining effective internal control over compliance with the requirements of laws, regulations, contracts, and grants applicable to state programs. In planning and performing our audit, we considered The Aleutians East Borough's internal control over compliance with requirements that could have a direct and material effect on a major state program to determine the auditing procedures for the purpose of expressing our opinion on compliance and to test and report on internal control over compliance in accordance with the State of Alaska Audit Guide and Compliance Supplement for the State Single Audits, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of The Aleutians East Borough's internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct noncompliance with a type of compliance requirement of a state program on a timely basis. A material weakness in internal control over compliance is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a state program will not be prevented, or detected and corrected, on a timely basis.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be deficiencies, significant deficiencies or material weaknesses. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses, as defined above.

This report is intended solely for the information and use of the audit committee, management, and the State of Alaska and is not intended to be and should not be used by anyone other than these specified parties.

Meurhaun i Vogla
